\*An additional 3% charge is added for amounts paid via credit/debit card payments

(continued on the next page)

# Shelter Pro Order Form (without SQL Server backend)

## **Explanation of Annual Technical support coverage**

- Technical assistance is limited to questions regarding the Shelter Pro system. Problems with computer hardware, software (except Shelter Pro), operating systems, networks, communications, and data recovery are not included in technical assistance fees. We can help with issues not related to Shelter Pro, however, payment for technical assistance will be billed in addition to the Shelter Pro pricing structure. If technical assistance is not purchased, a \$85 per incident charge will apply if services are requested at a later date.
- Technical assistance without User Administration will not cover assistance with password/access assistance when access is prohibited due to lost or forgotten user ids or passwords. We can help with these issues if technical assistance with User Administration support has not been purchased, however there is an \$85 per incident charge.
- Technical assistance with User Administration will cover assistance with password/access assistance when access is prohibited due to lost or forgotten user ids or passwords. This only applies to Shelter Pro and no other software packages or network systems.

## **Explanation of upgrades**

- Build upgrades are included in the purchase price. Newer builds of a version will typically include enhancements which are identified and implemented while not requiring a version upgrade. To get build upgrades for free, you must be able to download the upgrade using an internet connection.
- Version upgrades are not included in the pricing. Version upgrades come about when significant enhancements are implemented which require a change in the database structure. They typically occur once per year. Since version upgrades provide significant new and improved functionality, there is a charge for these upgrades. The pricing will vary based upon the number of modules which have been purchased.

## **Example**

If the version/build you originally purchased Shelter Pro is 9.12.0005, the version you have is 9.12, and the build is 0005. As 9.12 is improved, the enhancements are distributed as new builds, and would be known as 9.12.0006, 9.12.0007, 9.12.0008, etc. As these new builds are released you may get these upgrades without additional cost. At some future date, 9.13.0000 may be released. At this point there is a version upgrade (version 9.13). You may determine that the features in 9.13 are valuable to you and wish to upgrade. At that point, you will be able to upgrade upon payment of the Version Upgrade Pricing schedule.

Documentation is included in the purchase price. This includes but is not limited to The Shelter Pro User's Guide and The Shelter Pro Administration Guide. All documentation is in soft copy form. If hard copy is desired, our customers are welcome to print the documentation.

## **6) Sign and date**

Signature \_\_\_\_\_ Date \_\_\_\_\_

## **7) Send order**

Please make checks payable to RoseRush Services LLC. Purchase orders are accepted. Mail or fax order to:

**RoseRush Services LLC**  
**P.O. Box 2006**  
**Buena Vista, CO 81211**

**Phone (936) 273-1904**  
**Fax (936) 622-6813**

Prices are subject to change without notice.

**Thank you for your order!**
